- Compatible with UDMA CF and CF devices
- Free dedicated professional technical support
- Limited lifetime warranty

Capacities:

8GB
16GB
32GB

Ultimate Professional-Level, High-Speed Performance

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities, which include innovative features and valuable free software. With so many options, it's easy to find the right Lexar[®] solution to fit your workflow needs.

The premium Lexar Professional 600x CompactFlash[®] (CF) memory card provides ultimate high-speed performance and reliability for professional photographers, with industry-leading 600x (90MB/s) guaranteed minimum sustained write speed.* The card provides support for high-resolution UDMA-enabled DSLR cameras, lets you capture and store high-quality images and video, and dramatically increases card-to-computer transfer rates when paired with a UDMA-enabled reader. The Lexar Professional 600x CF card is available in 8GB, 16GB, and 32GB capacities.

Ultimate, Blazing-Fast Performance and Reliability

Blazing Card-to-Computer Download Speed. The Lexar Professional 600x CF card leverages UDMA 6 technology to offer ultimate, high-speed performance with a guaranteed minimum sustained write speed capability of a blazing 600x (90MB/s). This means you can keep shooting—whether you're capturing high-quality images or video. The card also dramatically improves card-to-computer transfer rates when paired with the Lexar Professional ExpressCard[™] CompactFlash Reader or other UDMA-enabled reader, drastically reducing post-production time.

Includes Downloadable Software and Valuable Offers. The Lexar Professional 600x CF card includes the latest version of award-winning Lexar Image Rescue[™] software. Image Rescue 4 software provides reliable recovery of most photo and video files, even if they've been erased or the card has been corrupted.** What's more, the card includes exclusive, money-saving offers on leading Adobe[®] software. You'll enjoy free, 30-day trials of the latest versions of Adobe[®] Photoshop[®] Lightroom[®] (with \$100 off the full version), Adobe[®] Premiere[®] Elements, and Adobe[®] Photoshop Elements software (with \$30 off each full version).†

Unmatched Performance, Reliability, and Compatibility. The Lexar team works with major camera manufacturers to ensure all Lexar memory cards are compatible with their digital cameras—from the simplest to the most complex. The cards are also tested in the Lexar Reliability Lab, a facility with more than 800 digital cameras and memory card devices, to further ensure compatibility and performance. And all Lexar Professional cards come with a limited lifetime warranty and a free, dedicated customer support line. Designed with professional photographers in mind, the advanced technology and blazing speed of the Lexar Professional 600x CF card provides ultimate memory card performance.

Lexar. When Memory Matters.[™]

*600x speed is based on a TestMetric CFA certified tester in UDMA mode 6. X=150KB/sec sustained write speed capability. Actual sustained speed may vary depending on host device.

**When used in conjunction with a UDMA-enabled reader and/or a UDMA-enabled camera.

***Image or other data recovery is not 100% guaranteed.

†Adobe offer is void where prohibited.

Actual usable memory capacity may vary. 1GB equals 1 billion bytes.
