## Capacities:

4GB  
8GB  
16GB

## microSDHC Mobile Memory Card

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities. With so many options, it's easy to find the right Lexar® memory card to fit your needs and lifestyle.

The high-capacity Lexar microSDHC™ mobile memory card is ideal for increasing the storage capacity of your SDHC-enabled cell phone, PDA, or other mobile device, allowing you to download, play, and store media and applications. The card is available in 4GB, 8GB, and 16GB capacities.

## Unleash the Power of your Mobile Device

**Take Mobile Technology to the Next Level.** In the ever-changing world of mobile technology, you need a memory card that can keep up with the demands of the latest applications found in today's feature-rich devices. The Lexar microSDHC mobile memory card is designed to maximize the capacity and capabilities of your microSDHC-enabled handheld device. It can significantly increase your storage capacity for multimedia files, including songs, photos, video, games, ringtones, and more.

**Serious Storage.** The Lexar microSDHC mobile memory card is a reliable, high-capacity solution that maximizes the storage and capabilities of your handheld device. The card gives you the ability to download and store a huge number of song, photo, video, gaming, and other media files—great for your mobile lifestyle.

Lexar. When Memory Matters.™

Warning: microSDHC cards are only compatible with devices that support the microSDHC format.

\*Based on 16GB capacity, 2-megapixel JPEG, 128-kbps MP3 audio, 384-kbps MPEG4-SP video. Actual number of photos, songs, and minutes will vary depending on camera/device model, format resolution and compression, usable capacity, and bundled software.

Actual usable memory capacity may vary. 1GB equals 1 billion bytes.
