Capacities:

2GB

Automatically, Effortlessly, and Wirelessly Upload Photos

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities, with a variety of capabilities. With so many options, it's easy to find the perfect Lexar memory card to fit your needs and lifestyle.

The Lexar Shoot-n-Sync Wi-Fi Memory Card simplifies the way you take, save, and share digital photos. Unlike regular memory cards, it allows you to automatically, effortlessly, and wirelessly upload photos via your Wi-Fi network. This means you can do more with your memories—instantly backup and save them on your PC, and easily share them with friends on photo-sharing or social networking websites. The card is available in 2GB capacity.

Easily Share Memories on Flickr, Facebook, and More

Instantly Send Photos to Your PC or Favorite Photo-Sharing Site.

Never got around to uploading or sharing your photos from the family picnic or your best friend's wedding? You're not alone. More than 350 million digital images are captured every day, and four out five of those images are never shared. Now you can free your photos with the Lexar Shoot-n-Sync Wi-Fi Memory Card, which uses innovative wireless technology from Eye-Fi and your home network to send photos from your digital camera to your computer and the Web.

Ultimate Convenience—Upload Photos without Cables or Readers.

After a simple one-time setup using easy-to-configure Eye-Fi Manager software, you can enjoy the freedom and convenience of Shoot-n-Sync Wi-Fi photo uploads. As soon as you walk in the door or whenever you're within range of your Wi-Fi network, your photos automatically upload to your computer and your favorite photo-sharing site, such as Flickr, Picasa, Facebook, and TypePad.

SD-Device Compatibility and Lexar Reliability.

The Lexar Shoot-n-Sync Wi-Fi Memory Card combines Lexar memory card reliability with wireless technology from Eye-Fi. The card is compatible with SD-enabled digital cameras, and stores photos like a standard memory card. With Wi-Fi capabilities that give you the power to effortlessly upload and share your memories, the card provides an ideal solution to storing, saving, and managing the ever-increasing number of digital photos you take.

Automatically upload photos to computer or web

Actual usable memory capacity may vary. 1MB equals 1 million bytes; 1GB equals 1 billion bytes.
