16GB  
32GB

### High-Capacity Storage with Video Versatility

Lexar offers a complete line of award-winning memory cards in various speeds, formats, and capacities. Lexar® speed-rated cards are individually performance tested before they ship, ensuring quality and performance and providing a higher level of confidence, whether you're snapping family photos on vacation or capturing HD video of an important event.

Designed for photo and video enthusiasts, the Lexar Platinum II Secure Digital High Capacity (SDHC™) memory card is a high-speed, high-capacity card designed for sustained rapid-fire picture-taking and full-motion video with SDHC-enabled digital devices. The card is speed-rated at 60x, the equivalent of a minimum sustained write speed capability of 9MB per second. The Lexar Platinum II SDHC card is available in 4GB, 8GB, 16GB, and 32GB capacities.

### Designed for Fast-Action Photos and HD Video

**Maximize Your Photo- and Video-Taking Experience.** Leverage the photo- and video-taking abilities of your SDHC-enabled point-and-shoot digital camera or digital camcorder. With the high-capacity, high-speed performance of the Lexar Platinum II SDHC card, you can take a huge number of photos in quick succession using the "burst mode" feature of your camera, as well as fully leverage the video capabilities of your point-and-shoot digital camera. Using a Lexar Platinum II SDHC card means you can always capture that perfect moment.

**Optimize the Storage Capacity of Your Netbook.** The high-capacity Platinum II 32GB SDHC card also provides a convenient solution for significantly expanding the memory of your netbook computer. It's a great way to store and watch a large number of HD movies on the device, as well as transfer content to other devices via the card.

**One Card Does it All.** The Lexar Platinum II SDHC card offers great versatility, allowing you to save and store your vacation photos and video clips from last weekend's soccer game, as well as providing extra storage for your netbook. The versatile Lexar Platinum II SDHC card is an excellent all-in-one solution to your storage needs.

Lexar. When Memory Matters.™

WARNING: Secure Digital High Capacity (SDHC) memory cards are only compatible with devices that support the SDHC format. The Lexar "x" speed rating describes minimum write speed capability where x=150KB/sec sustained write speed. Actual usable memory capacity may vary. 1GB equals 1 billion bytes.
