

Product Highlights:

- FireWire 800 interface for high-speed file transfer*
- Innovative, stackable design for concurrent downloads
- Reads both UDMA CompactFlash® (CF) and standard CF cards
- Activity LED and card eject button
- Two-year limited warranty

High-Speed Reader for Professional Photographers

Lexar offers high-performance Professional UDMA readers designed to help professional photographers and advanced photo enthusiasts maximize their post-production workflow speed. Lexar Professional UDMA Readers are ideal for use with high-speed cards, and provide incredibly fast download speeds when paired with a UDMA card—so you can maximize your workflow and minimize your post-production time.

The Lexar Professional UDMA FireWire® 800 Reader is a high-performance reader with a stackable design that allows for concurrent downloads from multiple cards. Fully compatible with both UDMA CompactFlash® (UDMA CF) and standard CF memory cards, the reader provides versatility and the ability to leverage blazing-fast UDMA CF card speeds.

Save Time and Improve Workflow

High-Speed Downloads. The Lexar Professional UDMA FireWire 800 Reader supports the FireWire 800 interface with data transfer rates of up to 800Mb/sec (or 100 MB/sec)—twice as fast as traditional FireWire 400—which satisfies the demand for faster transfer rates from card to computer. When paired with a high-speed Lexar Professional UDMA card, the reader is performance optimized to deliver blazing-fast read/write speeds from the card.

Innovative, Stackable Design. Lexar Professional UDMA FireWire 800 Readers have an innovative stackable design that allows up to four readers to be daisy-chained together for concurrent downloads. This unique feature lets you configure the readers to your specific needs, and allows you to streamline your productivity and drastically accelerate your workflow capabilities. The stackable design makes it ideal for boosting productivity in a photo studio environment.

Enhance Your Business. Lexar is the brand trusted by professionals. When used in conjunction with a UDMA CF card, the reader's high-speed performance allows you to reliably improve workflow and drastically accelerate download speeds from card to computer—saving you time and money. The sleek, stackable reader comes with free, dedicated customer support and a two-year limited warranty. Designed with professional photographers in mind, the Lexar Professional UDMA FireWire 800 Reader delivers high-speed transfer rates, so you can get back to the business of photography.

*Highest transfer speeds achieved when paired with a UDMA memory card.
Actual usable memory capacity may vary. 1MB equals 1 million bytes; 1GB equals 1 billion bytes.
